CRIME REDUCTION AND COMMUNITY SAFETY

The Ephrata Police Department will adhere to its core values and fulfill its mission by establishing and working towards accomplishing the major priorities established by its strategic plan. These priorities will set the direction for the department and guide its programs and actions.

- GOAL #1** Enhance the quality of life for all citizens, and reduce criminal activity and the conditions that foster crime and the fear of crime.
- GOAL #2** Improve community trust, interaction, involvement, and accountability.
- GOAL #3** Enhance agency efficiency and effectiveness.
- GOAL #4** Provide a work environment that attracts and retains a diverse cadre of quality personnel, rewards excellence, and enhances the skills of and opportunities for all personnel.

GOAL #1: Enhance the quality of life for all citizens, and reduce criminal activity and the conditions that foster crime and the fear of crime.

We will reduce criminal activity and the conditions that foster crime and the fear of crime, while increasing the quality of life. This goes beyond traditional law enforcement strategies and utilizes additional techniques and tactics. While enforcing the law through arrest, deterrence, and use of the criminal justice system will be utilized, we will supplement the use of these tactics with education, prevention, and intervention. Society cannot arrest its way out of the variety of social ills that exist. Nor can the police resolve the issues without support, desire, and involvement of the public. However, police can impact crime and the conditions that foster crime to varying degrees. The Ephrata Police Department (EPD) believes that any crime is too much and it is also unacceptable. Our goal is to eliminate all crimes. We will utilize all legitimate avenues to accomplish this priority.

We will use the following strategies:

- 1.1 Target violent crime and criminals.
This specifically includes Robberies, Assaults, and Sex crimes.
- 1.2 Target non-violent crime and criminals.
This specifically includes burglaries, break-ins, and graffiti.
- 1.3 Target firearms related offenses.
This specifically includes committing any offenses while in possession of a firearm and possession of a firearm by a felon.
- 1.4 Disrupt gang activities.
This specifically includes any crimes that are gang related or gang involved. The actions will include efforts toward enforcement, intervention, prevention, and education.
- 1.5 Disrupt illegal drug activities.
This specifically includes sales, manufacture, or transportation of drugs, whether illegal drugs or legal drugs used illegally. Great emphasis will be placed on public activities, activities near schools and parks and activities in residential areas.
- 1.6 Expand existing and implementing new initiatives that safeguard families, children, and the elderly from domestic violence, sexual violence, and victimization in general.
- 1.7 Strengthen and enhance efforts to deal with Habitual Offenders.
- 1.8 Strengthen existing and implement new partnerships with Federal, State, and local agencies to deal with crime, criminals and the conditions that foster crime.

1.9 Focus on youth related crime

Deal with crimes committed by youth of various ages through enforcement, intervention, education and prevention.

1.10 Improve the Quality of Life in all areas.

Success will be measured by:

- Reduction in crime levels overall and in specific crimes.
- Citizen perception of safety and their quality of life.
- Number of firearms related crimes; number of firearms seized, number of charges related to firearms, etc.
- Number of gang members identified, arrested, existing, etc.
- Number of illegal drug offenses reported and investigated; number of arrests involving drugs; amount of drugs seized; number and amount of drug related items seized; number of locations where drug related issues are substantially reduced or eliminated.
- Number, scope, and impact of initiatives to safeguard families, children.
- Number of Habitual Offenders arrested and intervened.
- Increased and enhanced partnerships with various entities.
- Level of youth related crimes; number and impact of prevention, intervention, and education.

It should be noted that even though many of these have numeric metrics, the true goal is to have an effect, a positive outcome. We are more focused on outcomes, rather than outputs, and results instead of efforts.
